CSC

Document eRecording for Submitters

Easily start eRecording with a secure, web-based solution

CSC® pioneered eRecording in the U.S. more than a decade ago, and is the nation's leading electronic recording (eRecording) provider.

Our secure, web-based eRecording solution allows document submitters—including title companies, law firms, financial institutions, and others—to electronically record real estate documents with county recording offices throughout the U.S.

CSC is the only eRecording service company to have been named a Top 50 Service Provider by *Mortgage Technology* magazine. If you're still submitting real estate documents by paper, it's easy to start eRecording.

A computer, Internet connection, and scanner/printer are all you need to start eRecording today. We offer state-of-the-art technology and a responsive, experienced staff to support your business.

Submitters praise CSC's faster processing speeds, comprehensive electronic document-handling features, ease of workflow, and substantial cost and time savings.

CSC offers an array of related document services to assist with your workloads and reduce your costs. We integrate with technology partners such as title software systems, case management systems, and lien release preparation systems to extend the capability and convenience of our solution.

The CSC Difference

Committed: Our commitment to the clients we serve is what guides everything we do, from our continual investment in technology and security, to the finer points of everyday transactions. We treat your business as our own, with pride and care, because we're a true extension of your team. Our customer service stands out because we provide knowledgeable, real-person service you can trust.

Agile: CSC evolves alongside our clients. Our employees are empowered to help you gain and sustain a competitive advantage, year after year. We bring the best technology and a wealth of solutions to deliver the exceptional results you need, and our tenacious dedication to adapting to and leading the market is what makes us a leader—always moving forward.

Expert: With more than 115 years of experience, we know what our clients need to get the job done. We combine industry expertise, critical workflow knowledge, and best practices to ensure their continued success. We offer customized solutions across every phase of the business life cycle.
